INDIA, KUWAIT BILATERAL TRADE TOUCHES ALL-TIME HIGH OF USD 12.5 BILLION, SAYS INDIAN ENVOY

Trade between the two countries has seen a 90 percent yearly jump, and while currently it is skewed towards hydrocarbon exports from Kuwait and exports of mainly food products from India, bilateral trade has the potential for diversification, the envoy said.

“There are excellent possibilities in pharmaceuticals and medical devices, automobiles and related spares, electronics goods and components, high-efficiency solar PV modules, textiles and apparel, white goods, ceramics, etc. But the main potential area of cooperation is in the field of investments from Kuwait to India

because of the attractive political and financial investment climate that the country provides, the Indian ambassador told Arab News online.

But the main potential area of cooperation is in the field of investments from Kuwait to India because of the attractive political and financial investment climate that the country provides. On May 8, we held a high-visibility investment seminar that presented the New India growth story. We saw much interest from our Kuwaiti partners in investing in India. There are some very positive experiences sharing Kuwaiti investments in India,” he added. “There is excellent potential in pharmaceuticals and medical devices, automobiles and related parts, electronics accessories and components.

INDIA'S FOREIGN TRADE CROSSES \$800 BN MARK IN FIRST SIX MONTHS OF 2023

Industry news

However, imports dipped by 5.9 percent in the first half of 2023, but service exports grew by 17.7 percent to \$166.7 billion, while imports rose by 3.7 percent to \$89.8 billion.

GTRI Co-Founder Ajay Srivastava said that the world trade outlook for 2023 is weak for many reasons, including US-led Western sanctions against Russia imposed in the wake of its special military operation in Ukraine; high worldwide inflation; tighter monetary policy, and financial uncertainty.

Srivastava said that India should continue to focus on increasing product quality and supply chain competitiveness and should not surrender its policy, especially in new issues in FTAs (free trade agreements) and the Indo-Pacific Economic Framework for Prosperity (IPEF). Regarding oil imports, GTRI said that import of crude petroleum reduced from \$79.2 billion in January-June 2022 to \$73.2 billion in January-June 2023, a decline of 7.6 percent, however, Russia's share in India's import of crude jumped from 6.4 percent in January-June 2022 to 31.3 percent this year. India has said that addressing the concerns of the Global South, including food and fertilizer shortages, is one of the primary objectives during its G20 presidency. The agenda of US President Joe Biden and the Western allies for the G20 Summit differs from India, which could make it challenging to arrive at a consensus.

India's petroleum crude imports from Russia increased from 6.4% in January-June 2022 to 31.3% in the same period this year, The Global Trade Research Initiative (GTRI) said. The Global Trade Research Initiative (GTRI) said on Monday that India's service sector helped the country's "total exports and imports of goods and services to cross the \$800 billion mark during the first half of 2023."
