## INDIA'S TRADE GAP WIDENS TO FOUR-MONTH HIGH AS IMPORTS SURGE

India's trade deficit, the gap between exports and imports, widened to a four-month high of USD 19.1 billion in April 2024, driven by a surge in imports. According to data released by the Ministry of Commerce and Industry on May 15, imports surged by 10.25 per cent year-on-year to USD 54.09 billion, outpacing the modest 1.09 per cent increase in exports, which stood at USD 34.99 billion.

India's widening trade gap is due to weak global demand, with exports rising slightly but imports increasing significantly, leading to the highest trade deficit since December 2023.

In April, imports decreased by USD 3.19 billion while exports decreased by USD 6.71 billion. Services exports in April rose by 14% to USD 29.57 billion, while imports increased by 21.56% to USD 16.97 billion compared to the same period in 2023.

# INDIAN STEEL INDUSTRY FACES RENEWED IMPORT CONCERNS AS VIETNAM REGAINS EXPORT LICENSE

The Indian steel industry is grappling with the potential resurgence of cheap steel imports from Vietnam, reigniting long-standing concerns over the impact on domestic producers.

The Bureau of Indian Standards (BIS) recently issued a license to Formosa Ha Tinh, a prominent Vietnamese steel manufacturer and exporter, granting them permission to resume steel exports to India, according to sources familiar with the matter.

The steel ministry mandated BIS licenses for imported steel products, pausing imports. Concerns were raised by industry experts about the impact on Indian steel markets, fearing increased steel dumping.

Vietnam's steel industry heavily relies on exports, with India being a key market. India is a net steel importer and imports from Vietnam have increased. The government is monitoring the situation and considering safeguard measures amid global industry changes like the EU's CBAM and green steel production.
