INDIA'S DAIRY EXPORTS DECLINE DESPITE HIGHER VOLUMES

India's dairy exports witnessed a 20 per cent decline in value to USD 468 million during the 2023-24 fiscal year, despite a 10 per cent rise in volumes. This dip in export value came despite record dairy exports of USD 588.93 million in the previous year 2022-23.

R.S. Sodhi, President of the Indian Dairy Association (IDA), attributed the decline to factors such as lower global commodity prices and reduced shipments of skimmed milk powder (SMP) and casein products.

Dairy product exports from India increased to 1.73 lakh tonnes in 2023-24.

The United States remained the top buyer, while exports to the UAE grew.

However, SMP exports were low due to market competitiveness issues, particularly with Bangladesh. Maintaining dairy exports is crucial for supporting farmers and the industry in India.

TELANGANA TO ADOPT SECTORAL INDUSTRIAL POLICIES FOR MSMES, TEXTILES, EXPORTS, LIFE SCIENCES, EV & GREEN ENERGY

The Telangana government is set to adopt six new industrial policies aimed at boosting the state's manufacturing sector and economic growth.

This comes after Chief Minister A. Revanth Reddy reviewed industrial development in the state and called for policies to help Telangana better compete with other countries. During a meeting with officials from the Telangana State Industrial Infrastructure Corporation, Reddy emphasised the need for a revamped industrial strategy.

The Chief Minister advised creating policies to benefit powerloom and handloom workers in the textile industry. New policies include MSME, Export, Life Sciences, EV, Medical Tourism, and Green Energy. Officials were directed to study international industrial policies to draft initiatives to attract investment and accelerate industrial growth in Telangana. Proposed policies aim to offer incentives for small businesses, boost exports, leverage strengths in life sciences and medical tourism, promote renewable energy, and support electric vehicle manufacturing.
